1. Customer Empathy Map Senses

Sector	Key Senses & Attributes
SAYS	- I want to eat healthy every day. - I don't know how many calories I consume. - I need a simple way to track my meals. - I want reliable nutrition information. - I don't have enough time to calculate everything manually.
THINKS	- Am I eating a balanced diet? - Is this food healthy for me? - How can I improve my eating habits? - I wish there was one app that could track all my meals. - Will I reach my fitness and health goals?
DOES	- Searches online for nutrition facts. - Uses different websites or apps to check calories. - Records meals occasionally but often forgets. - Tries to avoid unhealthy foods. - Looks for healthier food alternatives.
FEELS	- Confused by the large amount of nutrition information. - Frustrated with manually tracking calories. - Motivated to become healthier. - Worried about unhealthy eating habits. - Happy when making informed food choices.
PAINS	- Difficulty finding accurate nutritional information. - Time-consuming manual calorie calculations. - Inconsistent meal tracking. - Lack of personalized nutrition guidance. - Existing apps are complex or require paid subscriptions.
